PAPER – 1 : ACCOUNTING

*Question No. **1** is compulsory.*

*Answer any **four** questions from the remaining **five** questions.*

Wherever necessary, suitable assumptions may be made and indicated in answer by the candidates.

Working Notes should form part of the answer.

Question 1

(a) *Neon Enterprise operates a major chain of restaurants located in different cities. The company has acquired a new restaurant located at Chandigarh. The new-restaurant requires significant renovation expenditure. Management expects that the renovations will last for 3 months during which the restaurant will be closed.*

Management has prepared the following budget for this period –

Salaries of the staff engaged in preparation of restaurant before its opening	*₹ 7,50,000*
Construction and remodelling cost of restaurant	*₹ 30,00,000*

Explain the treatment of these expenditures as per the provisions of AS 10 "Property, Plant and Equipment".

(b) *(i)* *ABC Ltd. a Indian Company obtained long term loan from WWW private Ltd., a U.S. company amounting to ₹ 30,00,000. It was recorded at US \$1 = ₹ 60.00, taking exchange rate prevailing at the date of transaction. The exchange rate on balance sheet date (31.03.2018) was US \$1 = ₹ 62.00.*

(ii) *Trade receivable includes amount receivable from Preksha Ltd.,₹ 10,00,000 recorded at the prevailing exchange rate on the date of sales, transaction recorded at US \$1 = ₹ 59.00. The exchange rate on balance sheet date (31.03.2018) was US \$1 = ₹ 62.00.*

You are required to calculate the amount of exchange difference and also explain the accounting treatment needed in the above two cases as per AS 11 in the books of ABC Ltd.

(c) *HIL Ltd. was making provision for non-moving stocks based on no issues having occurred for the last 12 months upto 31.03.2017. The company now wants to make provision based on technical evaluation during the year ending 31.03.2018.*

Total value of stock ₹ 120 lakhs

Provision required based on technical evaluation ₹ 3.00 lakhs.

Provision required based on 12 months no issues ₹ 4.00 lakhs.

You are requested to discuss the following points in the light of Accounting Standard (AS)-1:

(i) Does this amount to change in accounting policy?

(ii) Can the company change the method of accounting?

(d) The accounting year of Dee Limited ended on 31st March, 2018 but the accounts were approved on 30th April, 2018. On 15th April, 2018 a fire occurred in the factory and office premises. The loss by fire is of such a magnitude that it was not possible to expect the enterprise Dee Limited to start operation again.

State with reasons, whether the loss due to fire is an adjusting or non- adjusting event and how the fact of loss is to be disclosed by the company in the context of the provisions of AS-4 (Revised). ***(4 Parts x 5 Marks = 20 Marks)***

Answer

(a) As per provisions of AS 10, any cost directly attributable to bring the assets to the location and conditions necessary for it to be capable of operating in the manner indicated by the management are called directly attributable costs and would be included in the costs of an item of PPE.

Management of Neon Enterprise should capitalize the costs of construction and remodelling the restaurant, because they are necessary to bring the restaurant to the condition necessary for it to be capable of operating in the manner intended by management. The restaurant cannot be opened without incurring the construction and remodelling expenditure amounting ₹ 30,00,000 and thus the expenditure should be considered part of the asset.

However, the cost of salaries of staff engaged in preparation of restaurant ₹ 7,50,000 before its opening are in the nature of operating expenditure that would be incurred if the restaurant was open and these costs are not necessary to bring the restaurant to the conditions necessary for it to be capable of operating in the manner intended by management. Hence, ₹ 7,50,000 should be expensed.

(b) Amount of Exchange difference and its Accounting Treatment

Long term Loan		Foreign Currency Rate	₹
(i)	Initial recognition US $ 50,000 ₹ (30,00,000/60)	1 US $ = ₹ 60	30,00,000
	Rate on Balance sheet date	1 US $ = ₹ 62	
	Exchange Difference Loss US $ 50,000 x ₹ (62 – 60)		1,00,000
	Treatment: Credit Loan A/c and Debit FCMITD A/c or Profit and Loss A/c by ₹ 1,00,000		
	Trade receivables		
(ii)	Initial recognition US $ 16,949.152* (₹10,00,000/59)	1 US $ = ₹ 59	10,00,000
	Rate on Balance sheet date	1 US $ = ₹ 62	
	Exchange Difference Gain US $ 16,949.152* x ₹ (62-59)		50,847.456*
	Treatment: Credit Profit and Loss A/c by ₹ 50,847.456* And Debit Trade Receivables		

Thus, Exchange Difference on Long term loan amounting ₹ 1,00,000 may either be charged to Profit and Loss A/c or to Foreign Currency Monetary Item Translation Difference Account but exchange difference on trade receivables amounting ₹ 50,847.456 is required to be transferred to Profit and Loss A/c.

(c) The decision of making provision for non-moving inventories on the basis of technical evaluation does not amount to change in accounting policy. Accounting policy of a company may require that provision for non-moving inventories should be made but the basis for making provision will not constitute accounting policy. The method of estimating the amount of provision may be changed in case a more prudent estimate can be made.

In the given case, considering the total value of inventory, the change in the amount of required provision of non-moving inventory from ₹ 4 lakhs to ₹ 3 lakhs is also not material. The disclosure can be made for such change in the following lines by way of notes to the accounts in the annual accounts of HIL Ltd. for the year 2017-18 in the following manner:

"The company has provided for non-moving inventories on the basis of technical evaluation unlike preceding years. Had the same method been followed as in the previous year, the profit for the year and the value of net assets at the end of the year would have been lower by ₹ 1 lakh."

(d) As per AS 4 (Revised) "Contingencies and Events occurring after the Balance Sheet Date", an event occurring after the balance sheet date should be an adjusting event even if it does not reflect any condition existing on the balance sheet date, if the event is such as to indicate that the fundamental accounting assumption of going concern is no longer appropriate.

The fire occurred in the factory and office premises of an enterprise after 31 March, 2018 but before approval of financial statement of 30.4.18. The loss by fire is of such a magnitude that it is not reasonable to expect the Dee Ltd. to start operations again, i.e., the going concern assumption is not valid. Since the fire occurred after 31/03/18, the loss on fire is not a result of any condition existing on 31/03/18. But the loss due to fire is an adjusting event the entire accounts need to be prepared on a liquidation basis with adequate disclosures by the company by way of note in its financial statements in the following manner:

"Major fire occurred in the factory and office premises on 15th April, 2018 which has made impossible for the enterprise to start operations again. Therefore, the financial statements have been prepared on liquidation basis."

Question 2

(a) Following transactions of Nisha took place during the financial year 2017-18:

1st April, 2017	*Purchased ₹ 9,000 8% bonds of ₹ 100 each at ₹ 80.50 cum-interest. Interest is payable on 1st November and 1st May.*
1st May, 2017	*Received half year's interest on 8% bonds.*
10 July, 2017	*Purchased 12,000 equity shares of ₹ 10 each in Moon Limited for ₹ 44 each through a broker, who charged brokerage @ 2%.*

* Considering that dividend was received on right shares also.

Working Notes:

1. **Profit on sale of 8% Bonds**

Sales price	₹ 1,82,250
Less: Cost of bond sold = 6,94,500/9,000x 2,250	(₹ 1,73,625)
Profit on sale	₹ 8,625

2. **Closing balance as on 31.3.2018 of 8 % Bonds**

   6,94,500/ 9,000 x 6,750= ₹ 5,20,875

3. **Calculation of right shares subscribed by Moon Ltd.**

   Right Shares = 12,000/4 x 1= 3,000 shares

   Shares subscribed by Nisha = 3,000 x 40%= 1,200 shares

   Value of right shares subscribed = 1,200 shares @ ₹ 5 per share = ₹ 6,000

4. **Calculation of sale of right entitlement by Moon Ltd.**

No. of right shares sold = 3,000 – 1,200 = 1,800 rights for ₹ 4,050

Note: As per para 13 of AS 13, sale proceeds of rights are to be credited to P & L A/c.

(b) Computation of claim for loss of stock

	₹
Stock on the date of fire (i.e. on 1.10.2017)	3,75,000
Less: Stock salvaged	(50,000)
Stock destroyed by fire (Loss of stock)	3,25,000

Insurance claim = ₹ 3,25,000

(Average clause is not applicable as insurance policy amount (₹ 5,00,000) is more than the value of closing stock ie. ₹ 3,75,000)

Memorandum Trading A/c
(1.4.17 to 30.9.17)

Particulars	*(₹)*	*Particulars*	*(₹)*
To Opening stock	3,50,000	By Sales	25,68,000
To Purchases (₹ 18,75,000+₹ 1,00,000)	19,75,000	By Goods with customers* (for approval) (W.N.1)	99,000
To Carriage inward	35,000	By Closing stock (bal. fig.)	3,75,000
To Wages	40,000		
To Gross profit (₹ 25,68,000 x 25%)	6,42,000		
	30,42,000		30,42,000

* For financial statement purposes, this would form part of closing stock (since there is no sale). However, this has been shown separately for computation of claim for loss of stock since the goods were physically not with the entity and, hence, there was no loss of such stock.

Working Notes:

1. **Calculation of goods with customers**

Since no approval for sale has been received for the goods of ₹ 1,32,000 (i.e. 2/3 of ₹ 1,98,000) hence, these should be valued at cost i.e. ₹ 1,32,000 – 25% of ₹ 1,32,000 =₹ 99,000.

2. **Calculation of actual sales**

   Total sales – Goods not dispatched - Sale of goods on approval (2/3rd) =

   Sales (₹ 27,75,000 – 75,000 – ₹1,32,000) = ₹ 25,68,000

Question 3

(a) Aman, a readymade garment trader, keeps his books of account under single entry system. On the closing date, i.e. on 31st March, 2017 his statement of affairs stood as follows:

Liabilities	*Amount ₹*	*Assets*	*Amount ₹*
Aman's capital	*4,80,000*	*Building*	*3,25,000*
Loan	*1,50,000*	*Furniture*	*50,000*
Creditors	*3,10,000*	*Motor car*	*90,000*
		Stock	*2,00,000*
		Debtors	*1,70,000*
		Cash in hand	*20,000*
		Cash at bank	*85,000*
	9,40,000		*9,40,000*

Riots occurred and a fire broke out on the evening of 31st March, 2018, destroying the books of accounts. On that day, the cashier had absconded with the available cash. You are furnished with the following information:

1. *Sales for the year ended 31st March, 2018 were 20% higher than the previous year's sales, out of which, 20% sales were for cash. He always sells his goods at cost plus 25%. There were no cash purchases.*
2. *Collection from debtors amounted to ₹ 14,00,000, out of which ₹ 3,50,000 was received in cash.*
3. *Business expenses amounted to ₹ 2,00,000, of which ₹ 50,000 were outstanding on 31st March, 2018 and ₹ 60,000 paid by cheques.*
4. *Gross profit as per last year's audited accounts was ₹ 3,00,000.*
5. *Provide depreciation on building and furniture at 5% each and motor car at 20%.*
6. *His private records and the Bank Pass Book disclosed the following transactions for the year 2017-18:*

	₹
Payment to creditors (paid by cheques)	*13,75,000*
Personal drawings (paid by cheques)	*75,000*

Repairs (paid by cash)	*10,000*
Travelling expenses (paid by cash)	*15,000*
Cash deposited in bank	*7,15,000*
Cash withdrawn from bank	*1,20,000*

7. *Stock level was maintained at ₹ 3,00,000 all throughout the year.*
8. *The amount defalcated by the cashier is to be written off to the Profit and Loss Account.*

You are required to prepare Trading and Profit and Loss A/c for the year ended 31st March, 2018 and Balance Sheet as on that date of Aman. All the workings should form part of the answer.

(b) *Axe Limited has four departments, A, B, C and D. Department A sells goods to other departments at a profit of 25% on cost. Department B sells goods to other department at a profit of 30% on sales. Department C sells goods to other departments at a profit of 10% on cost, Department D sells goods to other departments at a profit of 15% on sales.*

Stock lying at different departments at the year-end was as follows:

	Department A	*Department B*	*Department C*	*Department D*
Transfer from Department A	-	*45,000*	*50,000*	*60,000*
Transfer from Department B	*50,000*	-	-	*75,000*
Transfer from Department C	*33,000*	*22,000*	-	-
Transfer from Department D	*40,000*	*10,000*	*65,000*	-

Departmental managers are entitled to 10% commission on net profit subject to unrealized profit on departmental sales being eliminated.

Departmental profits after charging manager's commission, but before adjustment of unrealized profit are as under:

	₹
Department A	*2,25,000*
Department B	*3,37,500*
Department C	*1,80,000*
Department D	*4,50,000*

Calculate the correct departmental profits after charging Manager's commission.

Question 4

E, F and G were partners in a firm, sharing profits and losses in the ratio of 3:2:1, respectively. Due to extreme competition, it was decided to dissolve the partnership on 31st December, 2017. The balance sheet on that date was as follows:

Liabilities		*₹*	*Assets*	*₹*
Capital accounts:			*Machinery*	*1,54,000*
E	*1,13,100*		*Furniture & fittings*	*25,800*

The realization of assets is spread over the next few months as follows:

February, Debtors, ₹ 51,900; March, Machinery, ₹ 1,39,500; April, Furniture, etc. ₹ 18,000; May, G agreed to take over investment at ₹ 6,300; June, Stock, ₹ 96,000.

Dissolution expenses, originally provided, were ₹ 13,500, but actually amounted to ₹ 9,600 and were paid on 30th April. The partners decided that after creditors were settled for ₹ 50,400, all cash received should be distributed at the end of each month in the most equitable manner.

You are required to prepare a statement of actual cash distribution as received using "Maximum loss basis" method. ***(20 Marks)***

Working Notes:

1. **Time Ratio**

Pre incorporation period = 1st April, 2017 to 31st August, 2017

i.e. 5 months

Post incorporation period is 7 months

Time ratio is 5: 7.

2. **Sales ratio**

April	85,000
May	85,000
June	1,05,000
July	1,05,000
August	1,20,000

(4 x 5 Marks = 20 Marks)

Answer

(a) Accounting Standards standardize diverse accounting policies with a view to eliminate the non-comparability of financial statements and improve the reliability of financial statements. Accounting Standards provide a set of standard accounting policies, valuation norms and disclosure requirements. Accounting standards aim at improving the quality of financial reporting by promoting comparability, consistency and transparency, in the interests of users of financial statements.

The following are the benefits of Accounting Standards:

(i) ***Standardization of alternative accounting treatments:*** Accounting Standards reduce to a reasonable extent confusing variations in the accounting treatment followed for the purpose of preparation of financial statements.

(ii) ***Requirements for additional disclosures:*** There are certain areas where important is not statutorily required to be disclosed. Standards may call for disclosure beyond that required by law.

(iii) ***Comparability of financial statements:*** The application of accounting standards would facilitate comparison of financial statements of different companies situated in India and facilitate comparison, to a limited extent, of financial statements of companies situated in different parts of the world. However, it should be noted in this respect that differences in the institutions, traditions and legal systems from one country to another give rise to differences in Accounting Standards adopted in different countries.

(b) Yes, one of the characteristics of financial statements is neutrality. To be reliable, the information contained in financial statement must be neutral, that is free from bias.

Financial Statements are not neutral if by the selection or presentation of information, the focus of analysis could shift from one area of business to another thereby arriving at a totally different conclusion based on the business results. Information contained in the financial statements must be free from bias. It should reflect a balanced view of the financial position of the company without attempting to present them in biased manner. Financial statements cannot be prepared with the purpose to influence certain division, i.e. they must be neutral.

(c) As per AS 11 "The Effects of Changes in Foreign Exchange Rates", an enterprise may enter into a forward exchange contract to establish the amount of the reporting currency required, the premium or discount arising at the inception of such a forward exchange contract should be amortized as expenses or income over the life of the contract.

Forward Rate	₹ 62.50

Less: Spot Rate	(₹ 60.75)
Premium on Contract	₹ 1.75
Contract Amount	US$ 5,00,000
Total Loss (5,00,000 x 1.75)	₹ 8,75,000

Contract period 5 months

3 months falling in the year 2017-18; therefore loss to be recognized in 2017-18 (8,75,000/5) x 3 = ₹ 5,25,000. Rest ₹ 3,50,000 will be recognized in the following year 2018-19.

(d) A company may prefer issue of new equity shares in the following situations:

(a) When the company realizes that the capital is needed permanently and it makes more sense to issue Equity Shares in place of Redeemable Preference Shares which carry a fixed rate of dividend.

(b) When the balance of profit, which would otherwise be available for dividend, is insufficient.

(c) When the liquidity position of the company is not good enough.

Advantages of redemption of preference shares by issue of fresh equity shares

(1) No cash outflow of money is required – now or later.

(2) New equity shares may be valued at a premium.

(3) Shareholders retain their equity interest.

Disadvantages of redemption of preference shares by issue of fresh equity shares

(1) There will be dilution of future earnings;

(2) Share-holding in the company is changed.

(e) If the firm is dissolved before the term expires, as is the case, Amit, being a partner who has paid premium on admission, will have to be repaid / refunded.

The criteria for calculation of refund amount are:

(i) Terms upon which admission was made,

(ii) The time period for which it was agreed that the firm will not be dissolved,

(iii) The time period for which the firm has already been in existence

No claim for refund will arise if:

(i) The firm is dissolved due to death of a partner or If the dissolution of the firm is basically because of misconduct of,

(ii) If the dissolution is through an agreement and such agreement does not have a stipulation for refund *of premium.*
